4. FIRST AID MEASURES (DETAILED)

- **GENERAL ADVICE:** In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
- **IF INHALED (Critical):** Immediately remove the person to fresh air and keep them in a position comfortable for breathing. **Immediately call a doctor or a poison center.**
- **IF SWALLOWED:** Rinse mouth with water. DO NOT induce vomiting. Seek medical attention. If unconscious, place in a stable side position.
- **IF ON SKIN:** Remove contaminated clothing. Wash the skin thoroughly with soap and water for at least 15 minutes.
- **IF IN EYES:** Rinse cautiously with water for 15-20 minutes. Remove contact lenses if present. Consult an ophthalmologist.
- **NOTE TO PHYSICIAN:** The product contains Pyridaben. There is no specific antidote. Treatment is symptomatic.

5. PERSONAL PROTECTIVE EQUIPMENT (PPE)

- **Hand Protection:** Nitrile gloves.
- **Eye Protection:** Tightly fitting safety goggles or face shield.
- **Body Protection:** Protective work clothing and rubber boots.
- **Respiratory Protection:** **Mandatory** use of a respiratory mask with a dust/particle filter (Type P2 or P3) when handling the product.

6. INSTRUCTIONS FOR USE AND OPTIMAL CONDITIONS

- **Mechanism of Action:** Acaricide and insecticide with a rapid "knockdown" effect. Acts by contact on all motile stages of mites (larvae, nymphs, and adults) by inhibiting cellular respiration.
- **Optimal Conditions:** Ensure thorough coverage of the entire leaf surface, including the underside of the leaves.
- **Spray Volume:** 60 – 150 liters of water per decare (daa) depending on the canopy volume/vegetative mass.

7. PREPARATION OF THE WORKING SOLUTION

- **Mixing Instructions:** Fill the spray tank halfway with water. Add the measured amount of **MAIT KILLER WP**, having previously dissolved it in a small container with water to form a slurry. Turn on the agitator and top up with water. Keep stirring constantly during application.

8. COMPATIBILITY

- The product is compatible with most commonly used fungicides and insecticides, except for highly alkaline mixtures (Bordeaux mixture, lime sulfur). Always perform a physical compatibility test before mixing.

9. PHYTOTOXICITY

- The product is not phytotoxic to the registered crops when the recommended doses and conditions are followed.

10. ADDITIONAL INFORMATION

- **Color Band: YELLOW SIGNAL BAND (Class II).**
- **Manufacturer:** Agrico Group Ltd, 77 James Bouchier Blvd, Sofia 1407, Bulgaria.
